

# Gabriel do Nascimento Barbier

## Front-end Developer

gabrielnasb@gmail.com

+351914454663

## SUMMARY

---

- I'm a T-shaped front-end developer with minor back-end and cloud knowledge. Most of the time I'm coding in React, but I have experience with Angular as well and, if necessary, I can give some ideas to organize back-end and cloud structure.

## WORK EXPERIENCE

---

### Senior Front-end Developer

Dec 2022 - Nov 2023

Affinity

- Construction Equipment Rental Company: Develop and maintain a multilanguage (i18n) React dashboard that consumes data from iot devices, implementing code quality tools and practices, write documents about architecture, components structure and code, training of interns. (React, Javascript, Typescript, Unit Tests, CSS, SASS)

### Senior Front-end Developer

Dec 2019 - Dec 2022

Accenture Brasil

- Finance regulatory institution: Define the architecture for a new app; Develop the app working together with a Designer and Back-end developer; Develop a new app with real-time features for internal use; Mentor jr. developers. (Javascript, Jest, HTML, SCSS, React, Websockets, Scrum, Kanban, Git)
- Bank: Reverse engineer a third-party software used on the loyalty program; Define the software architecture with the team and prioritize features; Develop a new app to manage the loyalty program for internal use.  
(Angular, Typescript, Jest, HTML, SASS, Git, Scrum, Kanban)

### Front-end Developer

Mar 2017 - Dec 2019

MPRJ

- Design and develop new responsive and modern web apps using React and Redux and maps to give better support for prosecutors. <https://github.com/ministeriopublicorj> (React, Redux, Javascript, HTML, CSS, SCSS, Git, Github, jQuery, Agile, Scrum)
- InLoco: Develop a map of Rio de Janeiro state and render markers to help the user have insights. <https://github.com/MinisterioPublicoRJ/inloco> (Javascript, HTML, SASS, React, Redux, Git)
- Sinapse: Maintain the app used on investigations.  
<https://github.com/MinisterioPublicoRJ/sinapse> (Javascript, HTML, CSS, Git)
